AG112 - Water & Irrigated agriculture Resilient Europe

Sustainable, water and nutrient efficient, cropping systems

INNOVATION IS AN **IRREMISSIBLE COMPONENTS** OF A SUSTAINABLE WATER AND NUTRIENT EFFICIENT CROPPING SYSTEMS

INTEGRATED USE OF INNOVATION, CO-FERTILIZATION and KNOW-HOW CO-CREATION ARE OF THE UTMOST IMPORTANCE BUT OFTEN NEGLECTED

ON SHELF INNOVATION: PROJECT and DEMO SITES

The collage displays several brochures from the WIRES project. The most prominent one is titled "Project and Demo Sites 2015/2016" and features a map of Europe with various locations marked. Other brochures include:

- "Efficiency driven pumping station regulation in..."
- "Permanent Exhibition on Irrigation Tech..."
- "Project Badges for Irrigated Farms"

The brochures contain detailed information about the projects, including descriptions, objectives, and contact details.

THANKS
